i just want to write a few words on this . i use xm satellite radio to its fullest capacity ,being that i'm a commercial truck driver i want what i want to hear on demand and xm radio provides me with that service,and its very helpful to get wheather reports when i'm driving down the road and need to know whats the wheather like down the road. so i respectfully urge the fcc to reject the NAB'S PETITION 04-160 so that i can benefit from xm radio and thier services .  
sincerely,

jose camacho
